EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- *Cancel claims 30-55.*

The following is an examiner's statement of reasons for allowance:

The prior art of record do not teach or suggest, in the claimed combination thereof, a method of making an inductive coupler for downhole components, comprising the steps of:

providing an annular housing having a recess', a conductor; and a plurality of generally U-shaped MCEI (Magnetically Conducting Electrically Insulating) segments

forming an assembly by placing the plurality of MCEI segments within the recess in the annular housing, wherein the segments are aligned to form a generally circular trough and placing a first portion of the conductor within the circular trough;

consolidating the assembly with a meltable polymer to thereby fill spaces between the segments, annular housing and the first portion of the conductor. [note, the patentable features are in italic font]

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
